

## Protect Your Network With Managed Security Solutions

It takes 287 days for businesses to identify and control a data breach.<sup>1</sup> CommQuotes will help you get the vendor-agnostic, comprehensive cyber security solutions you need to strengthen your security posture.

Data breaches impact organizations every 39 seconds each day.<sup>2</sup> Is your business prepared to withstand a cyber attack? If you haven't reviewed your security posture recently – or ever – now is the time to secure any gaps in your defenses. Trust CommQuotes to help you determine the solutions that will keep you protected.

### Remote Work Security Concerns

The shift to hybrid and remote work environments has directly impacted the cost of data breaches. Businesses lose over \$1 million more on average when remote staff is a factor in the breach.<sup>3</sup>

Top remote network security threats include<sup>4</sup>:

### Increasingly Sophisticated Cyber Criminals

Studies show threat actors have increased in sophistication, using techniques that make them harder to detect. Consider these trends<sup>5</sup>:

- Last year, businesses saw an uptick in socially engineered email attacks, rising from 58 attacks per 1,000 mailboxes to 64 on average.
- Voice phishing (vishing) attacks targeting businesses increased last year, reaching as high as an 89% chance of attack.
